## A. Pre-Season Orientation Program

All coaches and their assistants, regardless of the number of years of prior basketball experience; must attend a NPYB, Inc preseason orientation seminar for the purpose of reviewing league rules and regulations, as well as understanding the scope of the coaching commitment. An orientation program will be scheduled before practices start for all coaching staff. Coaches will be required to evaluate each of their own players towards the end of the season. The league will provide a standard form on which generalized skill and attitude information will be recorded by the coaching staff. This information is subsequently combined in the next year's draft to provide a more accurate reference of where each player should be placed in the draft configuration. All player evaluation forms must be turned into the
league president before the team will be allowed to compete in the final tournament. These player evaluations will be kept confidential.

## 12. COACH'S CODE OF CONDUCT

Each coach represents the league through his/her actions on and off the court and, as such, must strive to uphold the following "CODE OF CONDUCT" standards: Coaches are encouraged to utilize a "positive reward" system of recognizing individual and team achievements. Players should not be admonished by the coach or fellow teammates for not being able to perform some level of activity; rather they should be individually coached in an effort to help the youth gain greater skills.

Coaches must recognize the sovereignty of the referees during all games. The board will arrange for training for all NPYB, Inc referees before the start of the season and will fully support their officiating decisions made during the games. Coaches are to remain flexible and realize that each referee is performing to the best of his/her ability and, yet, questionable calls may arise during games. If a coach feels that a referee has committed serious errors and, consequently, had a detrimental effect on the outcome of a game, he/she may contact the president. Coaches are not to encourage nor allow their team to "run up" the score against an opponent. A win by a greater margin than 25 points is deemed excessive. Tactics such as player substitution, as permitted under the minimum/maximum playing time restrictions of the league, as well as rotation of ball handling responsibilities should be used to keep the score differences within acceptability.

Players are asked to remain seated the entire time they are on the bench. Outbursts of anger or vulgarity directed at the officials or players will not be tolerated. Such occurrences will result in 1st offense 1 game suspension. 2nd offense is termination from the league for life.

Only players and coaches are allowed on the bench - YOU MUST HAVE YOUR COACHING BADGE. Spectators will be required to sit in the stands. Coaches are allowed one assistant coach. Every team must have a coach present, on the bench, for the entire game.

Coaches are responsible for the conduct of their team's fans and parents. Fans or parents that become abusive or disorderly will be asked by the officials and coaches to leave the gym. The coaches must fully support this decision by the referee(s). Coaches are expected to work closely with the league president and the board in quickly resolving problems that arise and providing feedback on ways to improve the program for the following year. Coaches and parents are encouraged to provide input to the board to assist in developing and administering future NPYB activities.

Coaches have the responsibility of providing each parent with a complete season game and practice schedule. Coaches must also keep parents informed of all changes in the original schedule.

Coaches and parents are to make all necessary arrangements to ensure that players will be promptly picked up after practices/games.

Coaches who cannot uphold the standards of the league will not be allowed to continue in a coaching capacity.

Coaches who receive two un-sportsmanship technical fouls during the season will be terminated, and an alternate coach will be placed with the team.

## NPYB PLAYING RULES

## 1. NAtional rules

The League shall be governed under the conditions published by the National Federation of State High School Association (NFSHA) entitled The Basketball

Official's Manual. This manual is available through the Board. Exceptions to this manual can be made by NPYB, Inc for respective divisions whenever deemed
necessary. The following summarization of rules is provided and would take precedence over any conflict with NFSHA rules.

## 2. TECHNICAL FOULS

Technical fouls can be assessed against a team or any of its members by the game's officials for any number of reasons including un-sportsmanlike conduct by players and/or coaches, as well as playing time violations as stipulated in the Rules. NPYB, Inc. technical fouls are divided into two broad categories -individual and team. "Individual technical" result from aberrant or overly aggressive behavior from individual players or coaches. "Team technical" will be assessed against the team itself, not a specific individual on the team, for violations of the general or playing NPYB, Inc. rules. In either case, any technical foul assessed against one team will result in the other team being awarded two (2) free throw and subsequent in bounding of the ball. Coaches and/or players receiving two or more individual technical fouls in a game will be automatically ejected from the remainder of that game and further suspended from participating in the next scheduled game. Any team receiving a total of three (3) individual technical fouls will automatically forfeit the game regardless of the score. A team may incur an unlimited number of team technical during a game; however, each technical foul will result in bonus free throws and in bounding of the ball for the opposing team as described above.

## 3. THE GAMES

There is no overtime for the 8-9 Age Division games. For the 10-11 Age Division, 12-13 Age Division and 14-17 Age Division, if the game ends after regulation play in a tied
score, a maximum of two-3 minute overtime periods can be played. The first "OT" period consists of three (3) full minutes of regular play. If the score still remains tied after the first "OT", a second sudden death victory period is played until one team scores at which time the game is over. If the score still remains tied at the end of the second "OT" period, overtime periods are played until we have a winner. Both "OT" periods begin with a jump ball.

## 4. Game Times

All games for all divisions will be played utilizing four 10-minute quarters with a running clock. The clock shall be stopped during time-outs. The clock is also stopped during the last minute of each quarter and OT play. There will be a one (1) minute break between each quarter and a (3) minute break at halftime for all divisions. A Time of at least 5 minutes will be allotted for pre-game warm-up activities before the start of the game. In order to keep the game within the allotted time period, the length of the rest periods may be altered at the discretion of the referees.

## 5. TIME-OUTS

There are a maximum of four (4) timeouts allotted to each team, which may be used at any time during regulation play. Each team will be allotted only one (1) timeout for each overtime period played. Unused time-outs from the first four quarters cannot be carried over into the overtime periods. A technical foul will be assessed against a team that calls for a time out when they have none available. The referee may also call an official's time-out to attend to an injured player or review problems associated with the scorebook, clock, etc. The official's time-out is not charged to either team.

## 6. PLAYING TIME

The following playing time restrictions are based upon the number of players present on a team at the beginning of the second quarter. With 7 or 8 Players Available
*All participants must play 2 full quarters, start-to-finish.
*All players must sit out one full quarter, start-to-finish. Players may not be reinstated into the playing lineup under any circumstances during this quarter even if another player has fouled out or has been injured. If a player fouls out or is injured the opposing coach will select a player from the bench.

## Exception is 6 and 7 division

## With 6 Players Available

*All players must play 3 full quarters, start-to-finish. The opposing coach will have the option of designating which player, of those playing in the first quarter; will sit out the
second quarter. A coach must notify the officials and the opposing coach when he/she has only 6 players available at the start of the second quarter.

Violation of this notice will result in a technical foul and the opposing coach will then have the option of designating which player, of those playing in the first or second quarter, will sit out the fourth quarter, however, if the opposing coach has only five players available for the game, he/she may not exercise this option.

## With 5 Players Available

All players will play the entire game.
A team must have, at least, four (4) players in order to start a game.

## Player Arriving Late

A player who arrives late for a game may have special restrictions on the number of required playing quarters as follows: A player arriving after the start of a quarter will not be allowed to play in that same quarter. Players arriving before the start of the second quarter shall play all of their allotted quarters as defined above and are not governed by any special playing time restrictions. If the player arrives during the second quarter of the game, the player must play, at least, one quarter and may be allowed to play two quarters at the discretion of the coach.

A player arriving after the start of the third quarter will not be allowed to play in that game. If a playing time violation occurs during a game, a technical foul will be assessed against the offending team. "During the game" is defined as any time after the players have taken their positions on the court and the ball has been thrown into play. If the violation involves a player with less than two full quarters of playing time, that player will be reinstated immediately into the game. If the violation involves a player who has already played his/her full three quarters, that player will be immediately removed from the game and be replaced by another eligible player.

It is the scorekeeper's responsibility to correctly record each quarter a player has played in the game. If a violation of the playing time happens it is the offending coach's responsibility to adjust his/her lineup to correct the problem and it will result in a technical foul. A player leaving the game early must check out through the scorekeeper. His/her coach must also notify the officials and the opposing coach when the player is dismissed.

Playing time violations are to be resolved during the game. They are not considered as acceptable grounds for formally protesting the outcome of the game. A seriously injured player will not be held accountable to the playing time requirements. Any bleeding must be stopped and the wound must be covered before the player will be allowed to re-enter a practice or game.

## 7. SCOREKEEPING

Each coach shall provide a parent to serve as the scorekeeper for each game. These individuals must sit at the official's sideline table located at half court during the game. The coach is responsible to check in his/her team before the start of the game, this includes but is not limited to: listing your roster at the scorers table with first and last name and player number, you should also at that time submit your starting line-up. If this is not done before the end of the warm-up period this could result in a delay of game technical foul.

Scorekeeper -Responsible for accurately recording the following information on the game's official score sheet - points scored by each player during each quarter of play, number of quarters played by each team member, number of personal and team fouls committed, number of time-outs taken and the running
score.

## 8. 20-POINT RULE for Division's 8-9,10-11,12-13,14-18

In the interest of competitive play, no team leading by twenty (20) points or more may pressure the ball in the opponent's back court area. After the 20 point threshold has been passed teams must play man to man defense until the team that is down gets within 20 points (this does not apply to 8-9 division where man defense must be played entire game) One warning will be issued for the first offense; a technical foul will be issued against the coach on the second and subsequent violations.

If a team is winning by more than the mercy rule of 20 points. Both teams may sub in players of lesser skills to get them additional playing time. This rule applies in the 4th quarter only.

## 9. PROTESTS

None, zero, Zilch. If problems arise during a game they must be resolved between the two coaches and officials at the time of the infraction.

## 10. GAME OFFICIALS

The game officials (referees) have the responsibility to ensure that the rules and regulations of basketball, as adopted by the League, are adhered to in all games. The referees are given complete authority by the League to make whatever calls or decisions are necessary to govern the play of the game. Each referee will sign the official score sheet after the conclusion of the game. Coaches, players and fans are not to harass the referees in any manner concerning their officiating decisions. Coaches are directly responsible for the conduct of their team's fans during and after all game activities. Any display of disrespect including inappropriate comments, physical
gesturing, vulgarity or other forms of unsportsmanlike conduct directed at the officials will result in a technical foul(s)
being assessed against the coach. Concurrently, the offending player/coach may be required to appear before the League's Conduct Enforcement Committee for subsequent disciplinary action. If questions should arise or clarification of a call is necessary, the referee should be approached courteously and politely. When instructions are given to the teams or coaches, a representative from both teams should be present.

If a coach feels that a complaint or protest concerning a referee decision(s) should be brought to the attention of the League, he/she will contact an Officer concerning the matter. If deemed necessary by the Officer, the matter will be reported to the Referee Coordinator for investigation.
